

they're obviously in love with the mirror.

Hospital layoffs: Portsmouth Regional Hospital (8 employees); Oregon Health & Science University (coming soon); Fairfield Medical Center (20-25 employees); Pinnacle Hospital (21 employees). if yours hasn't, it will.

Interesting: a UK hospital **uses** BlackBerry devices to alert nurses when recurring patients are admitted, bringing nurses together who know the patient's background. Orion Health helped develop it. It decreased length of stay: lung cancer patients from eight to six, lower GI from nine and a half to five. It's also being used for patients with MRSA or C.diff.

Nuance announces Veriphy 3.0 for verified notification of critical lab results.

iSOFT wins a big pharmacy management system contract with Western Australian Department of Health.
